

All of us who exhibit at a trade show, regardless of the product or service we are offering, have the same objective and that is to draw as many potential clients to our booth as possible. Every year, we ask the same question, *"What will it be this year?"*

You want something that is attention getting while putting your message across in an innovative, fun way but that will have a long lasting impact well after the show is over.

Juggling brings out the child in all of us. We associate it with childhood memories and are amazed at how they do it. The amazing thing about juggling is that it is very easy to learn, and once the skill has been mastered the show-off in all of us takes over, and we want to teach others how to juggle. Thus the product not only impacts the direct recipient, but also those around him - colleagues, family, and friends. Your corporate name reaches a wider audience.

As with the corporate seminars, you can also imprint the 3 key messages of the benefits of your company or 3 products that you offer etc... to keep in front of your potential client. In addition, we can also offer a speaker at your booth. The speaker will serve as a traffic builder by creating a sense of excitement with the juggling kit giveaway and about your tradeshow objectives that have been sent forth prior to the event.

We guarantee that word of mouth will spread quickly at this tradeshow. You will have client's telling other potential client's "Visit booth #XYZ, they gave me this great juggling kit and taught me how to juggle."

You not only will be giving an exciting gift like the juggling kit, but a new found skill that will be long remembered after the tradeshow.
